

Kelly Green Seeds 50% Replant Policy

If there is a need to replant a field of Kelly Green Seeds corn, soybeans, or sorghum, Kelly Green offers a 50% replant program. The customer will pay 50% of the original purchase price by unit. Replant must be planted in the same crop year as originally planted. Kelly Green Seeds will attempt to provide the same product for replant that the customer originally planted. Substitutions may be necessary.

To request replant seed, please take the following steps:

- 1) Email the following information to agronomy@kellygreenseeds.com
 - a. Picture of the field; if you have satellite imagery showing the field progression, please include that as well
 - b. Date seed was planted
 - c. Hybrid / Variety planted
 - d. Planting rate
 - e. Acres affected
 - f. Cause for seed to be replanted
 - g. Number of replant units (bags) required
 - h. Your contact information
- 2) A Kelly Green Seeds agronomist will contact you to discuss the replant acres. A Kelly Green Seeds agronomist may visit your field to review the plant stand and confirm cause for the poor stand.
- 3) A Kelly Green Seeds Customer Service Representative will reach out to you with a specific code that will allow you to purchase seed at 50% of your original price.
- 4) Place your replant order, using the coupon code provided by customer service.
